TRIBUTE TO BETHANY BUELL

● Mr. THUNE. Mr. President, today I wish to honor Bethany Buell of the University of South Dakota, USD, for becoming the first NCAA Division I National Champion in school history. Buell captured the National Championship by pole vaulting 14 feet, 7.25 inches on June 7, 2013 at Hayward Field in Eugene, OR.

Bethany Buell has had a terrific season for the USD Coyote's, earning All-American honors before ultimately capturing the D-I NCAA National Championship. Buell's record-breaking season was almost cut short after tearing ligaments in her shoulder after setting the highest national mark of 14 feet, 7.5 inches on March 29th. Buell returned from injury to compete on May 9th at the Summit League Championships. Buell was also named the NCAA Division I Outdoor Field Scholar Athlete of the Year by the U.S. Track and Field/Cross Country Coaches Association.

Bethany Buell is a redshirt junior from Rockwood Summit High School, in St. Louis, MO. Bethany, the daughter of Bill and Kerry Buell, is currently majoring in psychology with a minor in anthropology. Buell's career at USD has been record-breaking; as a true freshman, Bethany won the pole vault at the GWC Indoor Championships and broke the school record in the event twice. In 2011, Buell became the first USD Coyote to qualify for the NCAA D-I National Championships, where she would finish 13th and earn 2nd team All-America honors. In 2012, Bethany continued her ascent as one of the Nation's top pole vaulters becoming the first Coyote to earn All-American First-Team honors. She later finished 3rd at the NCAA D-I National Championships.

As a graduate of the University of South Dakota, I am honored to recognize Bethany Buell for her outstanding accomplishments and contributions to the University of South Dakota and to the State of South Dakota. Congratulations to Bethany, and to the Coyote Track and Field Team for a great season. Go Yotes!●

SIOUX FALLS ORPHEUM THEATER

● Mr. THUNE. Mr. President, today I wish to recognize the Sioux Falls Orpheum Theater Center's 100th Anniversary. Opening their doors in 1913, The Orpheum Theater Center was built to serve the City of Sioux Falls as a venue for theatrical presentations. Over the past 100 years, the Orpheum Theater has grown to become a cherished location for South Dakotans to enjoy quality entertainment.

The Orpheum Theater was built for the Solari Brothers and opened on October 3, 1913, as a vaudeville house and seated 1,000 audience members. Tickets for the opening night were sold for \$5 each and acts included features such as "An Evening in Honolulu," two different comedy acts, and the Orpheum Concert Orchestra.

In 1919, the theater was sold to a major theater management firm. It remained as a vaudeville house until 1927, when it was sold and became a second run and B movie theater. It was not until the Sioux Empire Community Playhouse purchased the building in 1954 that it was restored to its original theater space.

The City of Sioux Falls purchased the Orpheum and neighboring buildings in 2002 and has since named the entire facility The Orpheum Theater Center.

The Orpheum Theater Center has provided quality entertainment to many generations of South Dakotans. It attracts over 100,000 visitors each year with events that include plays, concerts, community events, and private events. Known for its superb acoustics, it is the oldest theater in

Sioux Falls. In 1983, the Orpheum Theater was added to the National Register of Historic Places.

I am honored to congratulate the Sioux Falls Orpheum Theater Center on their 100th Anniversary and wish them another 100 years of success.●

POM-90. A joint resolution adopted by the Legislature of the State of Utah urging the United States Congress to pass S. 336 and H.R. 684, the Marketplace Fairness Act; to the Committee on Finance.

HOUSE JOINT RESOLUTION NO. 4

Whereas, the Supreme Court of the United States held in *Quill v. North Dakota*, 504 U.S. 298 (1992) that the "dormant" or "negative" Commerce Clause of the Constitution of the United States prohibits a state from requiring a retailer to collect and remit sales tax on sales to consumers in the state unless the retailer has physical presence in the state;

Whereas, the Supreme Court further held "that the underlying issue is not only one that Congress may be better qualified to resolve, but also one that Congress has the ultimate power to resolve";

Whereas, the sales tax, as applied to consumer purchases, can be a transparent tax levied by state and local governments;

Whereas, the sales tax is, from the individual consumer's perspective, one of the simplest taxes imposed by state and local governments;

Whereas, a complex aspect of sales taxation, from the individual consumer's perspective, is the requirement to pay "use" tax directly to the state or locality when sales tax is not collected by the retailer;

Whereas, the electronic commerce industry needs to be left free from government interference, and any argument in favor of taxing sales on the Internet is problematic in light of constitutional provisions regarding interstate commerce and interstate compacts;

Whereas, because there are over 9,600 state and local taxing jurisdictions in the United States, each with unique and changing definitions, rules, and holidays, the sales tax is, from a remote seller's perspective, one of the most complex and costly taxes imposed by state and local governments;

Whereas, consumption taxes can be used to achieve competitiveness;

Whereas, the sales tax has been a stable source of state and local revenue and provides some level of certainty for states and localities;

Whereas, some proposed federal legislation authorizing states to require all retailers whose sales to consumers in those states exceed a minimum threshold to collect sales taxes has garnered support from some businesses and organizations;

Whereas, despite the progress states have made in simplifying state sales tax collection for remote sellers, there remain some inequities between the burden of tax collection obligations imposed upon sellers with physical presence and the burdens those same obligations would impose on remote sellers serving consumers in multiple states without physical presence;

Whereas, any federal legislation should be fair to both in-state and remote sellers, whether such legislation requires sales and use taxes to be collected on a point-of-sale or point-of-delivery basis; and

Whereas, the state of Utah has adopted or supports, and Congress is considering, the following items in federal legislation:

1. State-provided or state-certified tax collection and remittance software that is simple to implement and maintain, and paid for by states;

2. Immunity from civil lawsuits for retailers utilizing state-provided or state-certified software in tax collection and remittance;
